SUOMI  
FINLAND

# HAPPINESS AND EQUALITY

# THE STORY OF HAPPINESS

**Finland ranks as the happiest country in the world in the UN World Happiness Report (2022, 2021, 2020, 2019, 2018)**

Finns are satisfied with everyday life. The environment is one of the reasons: Finland has the cleanest air and freshest water. A stable society helps too: Finland has one of the freest election systems and is perceived to be one of the least corrupt countries in the world. Finland is ranked first in protection of property rights, second in press freedom, and third in personal freedom and choice.

# EDUCATION

All education from preschool to vocational colleges and universities is **free of charge** for both Finnish and EU citizens to ensure equal opportunities.

In basic education, the average class size is 20 students, and a student-centred approach lies at the heart of learning.

An important result of this egalitarian approach to education is that regional and socioeconomic differences in learning outcomes are very modest.

## FREE SCHOOL MEALS

In Finland, free-of-charge school meals have been provided since the 1940s, with the aim of supporting children's learning, nutrition and health.

## SOCIAL INNOVATION

Finland is considered one of the world's most socially innovative countries: it's the most stable country in the world and boasts the **best governance**. We also have the third-best **quality of life** in the world.

Finland's standing as a socially innovative country is based on a history of correcting social ills. Take the maternity package, for example: introduced in 1938, it brought all mothers into the social security system.

## MATERNITY PACKAGE

The maternity package – or “baby box” – was introduced in 1938. It provides mothers with items to make it easier to look after their baby. More than 95% of mothers choose the baby box instead of an equivalent cash grant.

# GOOD GOVERNANCE

SUOMI  
FINLAND

Finland consistently ranks at or near the top in international surveys comparing levels of trust in different societies: trust in such public institutions as the police and the legal system, trust in media, trust in politicians, trust in taxation and trust in one's fellow citizens.

In **1906**, Finland became the first country in the world to give all their citizens equal rights to vote and to run for parliamentary election regardless of gender or class.

Since **2012**, Finns have also had a chance to directly participate in proposing legislation by submitting a citizens' initiative in an online service, and have that initiative considered by Parliament if it collects enough support.

# TRUST IN SOCIETY

**Finns can trust the system and each other.** Finland is the least corrupt country in the world, and 85% of Finns agree or strongly agree that they can trust most of their fellow citizens.

Trust in politics and public officials is possible due to a free market economy, an independent judicial system and a system of checks and balances that ensure a low level of corruption.

# FREEDOM

Finns truly have the **freedom** to make decisions.

Finland ranks first among countries with the most **political and civil freedom**. Finns are also in the global top three when it comes to opportunities available to a nation's citizens.

Finland also has the **second-freest press** in the world (2021). With a 100% literacy rate, Finns are also among the world's most active news media readers.

# TRANSPARENCY

In addition to the quality of governance and stability, Finland also ranks high in **transparency of government practices**, and has **well-distributed political power**.

Source: U.S. News & World Report 2021, Transparency International 2021

# WORK-LIFE BALANCE

Helsinki, Finland ranks in the top three for **work-life balance** when comparing data on work intensity, institutional support, legislation and livability.

The 8-hour work day leaves plenty of time for family, friends and hobbies. Finnish working hours are the most employee-friendly.

# SOCIALLY JUST

**Healthcare and income security are guaranteed for everyone in Finland.**

Finland ranks as the 3rd most socially just country in the EU, measured according to poverty prevention, equitable education, labour market access, health and other factors.

This means a better chance at happiness for all. It is no coincidence that Finland ranks as one of the most socially just countries in the world.

SUOMI  
FINLAND

# SANTA CLAUS LIVES IN LAPLAND, FINLAND

The real Santa comes from Finland. He has always lived in Korvatunturi, Lapland. Not the North Pole!

SUOMI  
FINLAND

# NATURE

# FINNISH NATURE

With more than **75%** of its area covered by trees, Finland is Europe's most forested country.

Finland is also a country of water. To the south and west Finland is bordered by the Baltic Sea while much of Central Finland is covered by lakes.

All in all, there are **188,000** lakes in Finland, earning us the name "Land of a Thousand Lakes".

# NATURE RELATIONSHIP

Every Finn truly has an individual connection to forests; **more than 80% of Finnish people say the forest is important to them.**

**Finns feel safe in the forest.** They go there to relax and to feel a connection with nature. A desire to preserve nature also figures strongly in Finnish people's relationship to the forest. They associate the woods with serenity, energy, joy, security, closeness and togetherness.

SUOMI  
FINLAND

## THERE ARE MORE SAUNAS THAN CARS IN FINLAND

This is a country with 3.2 million saunas and 5.5 million people. Finns go to the sauna naked – and often together with family or friends. Every Finn has their own sauna traditions but one's mind and body will always be cleaned. It's a sauna state of mind.

# CLIMATE SOLUTIONS

SUOMI  
FINLAND

We believe that **technological** and **social innovations** are the keys to find solutions that work everywhere. We want to do our part and share our solutions.

Finns want to participate in **protecting the environment together**. Four in five Finnish people think urgent action is needed to mitigate climate change. **Climate education** is part of the Finnish curriculum from kindergarten to university.

**Roadmaps** have been prepared for many industries and sectors aiming at significant reductions in greenhouse gas emissions by **2035**. These roadmaps are a cornerstone of the government's climate policy.

SUOMI  
FINLAND

## EVERY PERSON'S RIGHT

What really democratizes access to nature is the unique Finnish concept of Every Person's Right. It states that everyone may hike, camp and gather mushrooms and berries in any forest or uninhabited area, regardless of who owns it.

Photo: Mikko Nikkinen / Visit Finland

# FORESTRY

Two-thirds of Finnish forests are owned by ordinary families. This means **one in five Finnish citizens owns forest land**, accounting for over 80% of the wood used by the forest industry.

Finland is a world leader in sustainable forest management. Commercial forestry must take into account forest biodiversity and carbon sinks.

Around **12%** (2.7 million hectares) of Finnish forest is protected.

SUOMI  
FINLAND

# ECONOMY

# FINNISH ECONOMY

Measured by many significant economic and wellbeing indicators, Finland is among the leading countries of the world.

Finland's gross national product (GNP) is EUR **240 billion** (2019), which equals EUR **43,500** per inhabitant.

In international comparisons, Finland ranks among the richest countries in the world. The income gap is narrow in international terms.

# FOREIGN TRADE

SUOMI  
FINLAND

Finland leans heavily on foreign trade. The ratio of exports to GNP is approximately **39%** (2019). The value of export goods is approximately **EUR 65 billion**, while the value of service exports is **EUR 28 billion**.

Around **76%** of Finnish exports are intermediate products, such as parts of machinery and equipment, and chemical industry products that are processed into end products elsewhere.

Exports of Finnish intermediate products are mainly targeted at China and the United States.

# + TECHNOLOGY INDUSTRIES

Technology industries are the biggest export sector in Finland, accounting for approximately **50%** of Finnish goods and service exports (2020).

Many leading smart technology companies in the world have Finnish roots, including network equipment manufacturer **Nokia**, elevator and escalator manufacturer **KONE**, marine engine and power plant developer **Wärtsilä**, and several forestry-related technology companies.

SUOMI  
FINLAND

## STARTUPS

Finland offers startups an open and easy business environment with creative entrepreneurs who support each other. Helsinki has been viewed as the startup centre of Northern Europe. A startup and investor conference, Slush, is organised in Helsinki every November.

Photo: Mikael Ahlfors/Keksi

# MARITIME SECTOR

Finland also boasts state-of-the-art expertise in the maritime sector. Almost **80%** of the world's ice-breakers are designed in Finland, and of those approximately **60%** are manufactured here.

One of the largest shipbuilding subcontractors in the world, with over 1,000 suppliers, supports Finland's strong footing in the maritime sector.

Our internationally known maritime network's expertise ranges from the likes of cruise ships to icebreakers and offshore solutions as well as port technology.

# CHEMICAL & FOREST INDUSTRIES

Approximately **20%** (2019) of Finnish goods exports are products manufactured for the chemical and forest industries.

**Neste** is the biggest producer of high-quality renewable diesel and an important operator in the international oil refinery sector.

Approximately **75%** (2019) of Finland's surface area is forest, and the country has long been a key global player in the forestry sector.

Photo: Tarja Hoikkala/  
Vastavalo/Visit Finland

## LIFE SCIENCES

For decades, Finland has invested hundreds of millions of euros per year in health-related education, research and research infrastructure. This has created cutting-edge Finnish research and treatment in cancer, brain disease, cardiovascular disease and genetics.

# PAPER & CARDBOARD

More than **10%** of all European paper and cardboard is produced in Finland.

A total of **67%** of Finnish paper and cardboard exports are targeted at Europe, approximately **10%** go to Asia and North America.

Approximately half of Finnish pulp exports go to Asia, while a slightly smaller amount is targeted at Europe.

# MINING & METALS

**Mining** is another significant industry in Finland.

The sector is engaged in **intensive research activities** and has **top-level industrial expertise**, with Finnish equipment and technology companies operating on the global markets.

Finland is the biggest producer of **gold, platinum** and **palladium** among the EU member states. When it comes to steel production, Finland is one of the countries at the forefront in reducing the industry's carbon footprint.

Photo: Juho Kuva/Visit Finland

## GAME INDUSTRY & ESPORTS

Finland has decades of experience developing both globally successful and groundbreaking games. Public innovation and funding groups support gaming, as do universities, trade groups and industry associations.

# ARCTIC

Finland is one of the **world's leading experts in Arctic shipbuilding, shipping, winter navigation and maritime and offshore technology**. Finland manufactures advanced state-of-the-art Arctic ice-breakers and specialised offshore vessels.

Special expertise is also available in winter navigation and logistics, ice-breaking, monitoring and controlling sea transport, as well as weather and ice information services.

# CIRCULAR ECONOMY

**Finland created the world's first National Road Map to a Circular Economy (2016–2025).**

For Finland, a circular bioeconomy is a tool for achieving sustainable development, combatting climate change, saving natural resources, and improving the state of the environment, all while generating economic growth and jobs.

Photo: Business Finland

SUOMI  
FINLAND

## ARTIFICIAL INTELLIGENCE

Finland has contributed to the development of AI from the very beginning of the industry. Finland has progressive legislation when it comes to promoting data access and sharing, so the necessary data access for AI is available.

SUOMI  
FINLAND

# CULTURE

# DESIGN

**Finland is one of the world's leading countries in design.** Finnish design combines practicality and functionality, a solution-focused approach and equality.

Furniture, glass and ceramics have been traditionally strong areas of Finnish design. Finland was one of the forerunners of industrial design as it grew in the 70s.

In **2012**, Helsinki was the World Design Capital, and in **2014** it was named UNESCO's City of Design.

Photo: Jussi Hellstén/Visit Finland

# ART

Finland's contemporary art scene embraces everything from experimental artist-run initiatives and commercial galleries to flagship art institutions.

There are over **3,000** professional visual artists, more than **60** art museums and numerous galleries in Finland.

Internationally, media art and photography are the most prominent fields of Finnish contemporary art.

Well-known Finnish artists include, for example, Helene Schjerfbeck, Eija-Liisa Ahtila and Elina Brotherus.

Photo: Serlachius Museums

# LITERATURE

Every year, **300–400** translations of Finnish literature are published abroad in about 40 different languages.

Finland is also known for its **comprehensive library network**, high user and lending rates and effective use of technology and information networks in libraries.

Some well-known Finnish authors: Mika Waltari, Sofi Oksanen and Tove Jansson.

Photo: Olli Ollinki/Visit Finland

SUOMI  
FINLAND

# FINLAND IS HOME TO THE MOOMINS

Swedish-speaking Finn Tove Jansson is known as the creator of the Moomin books and the lovable, round characters of the same name. Moomin stories have been translated into about 50 different languages.

# MUSIC

**Musical traditions** are woven into the very fabric of Finland's society. Finnish classical music first achieved international acclaim with Jean Sibelius.

Investment in a world-class music education, from kindergarten to university, ensures that quality music is produced, listened to and appreciated, regardless of genre.

Photo: Soilla Puurtinen/  
Savonlinna Opera Festival

**SUOMI  
FINLAND**

**With 52.3 bands per  
100,000 people, Finland  
has the highest number of  
metal bands per capita.**

# FASHION

Modern Finnish fashion was born during the heyday of Finnish design and architecture in the 1950s.

Finnish brands are **designer driven** – quality, sustainability and strong artistic vision are at the core of Finnish fashion.

Today Finland is looking to the future with the fast development of **new material innovations, award winning young designers** and **successful sustainable brands.**

Photo: Marimekko/Visit Finland

# FOOD CULTURE

Finnish food culture springs from **northern nature** but east and west have also had their influence on it.

Thanks to extreme variations in light and temperature, Finnish flavors are **clear, strong** and **sufficient** in themselves.

Enjoying Finnish food forms part of a rounded experience which is good for your health and pampers your taste buds.

SUOMI  
FINLAND

## **FINNS ARE THE WORLD'S BIGGEST COFFEE DRINKERS**

Finns drink an average of 2.6 cups per day. Coffee is consumed all day, every day, and coffee breaks are required by most unions.

SUOMI  
FINLAND

## FINNS LOVE BLACK LIQUORICE (SALMIAKKI)

Finnish salty ‘salmiakki’ is liquorice spiced up with ammonium chloride. It is something Finns can’t live without. It is also available in pharmacies as salmiakki was originally sold for its (supposed) health benefits.

# SPORTS

Almost **two-thirds** of all children and young people have a sport as a hobby. The most popular sports are football, floorball and ice hockey.

About **75,000** ice hockey players are registered to compete, but there are almost **200,000** young people who have ice hockey as a hobby. Ice hockey is also the most attended spectator sport in Finland.

Well-known Finnish athletes include, for example, Kimi Räikkönen, Lauri Markkanen and Eva Wahlström.
