HIGH-QUALITY FINNISH PRODUCTS ON THE GLOBAL MARKETS

Finnish economy

Finland's gross national product (GNP) is EUR 240 billion, which equals EUR 43,500 per inhabitant.

In international comparisons, Finland ranks among the 25–30 richest countries in the world.

Finland – a service society

Almost three out of four Finnish wage earners work in the service sector, while one in five is employed in the industrial or construction sector.

The forest sector still has an important role in the economy.

Foreign trade

Finland's wellbeing is largely based on foreign trade. The ratio of exports to GNP is approximately 39%.

Approximately 60% of Finnish goods exports go to the EU single market.

The main countries for Finnish exports are Germany, Sweden, and the Netherlands.

Technology industries

Technology industries are the biggest export sector in Finland, accounting for approximately 50% of Finnish goods and service exports.

Some well known Finnish companies in technology industry are for example Nokia, KONE and Wärtsilä.

Maritime sector

Finland also boasts state-of-the-art expertise in the maritime sector.

Almost 80% of the world's ice-breakers are designed in Finland, and of those approximately 60% are manufactured in Finnish shipyards.

Many of the biggest cruise ships are also made in Finland.
